First-grade students who don't yet know their letters and sounds will need special care and instruction. In addition to such phonemic awareness, beginning readers must know the names of the letters and have a basic understanding of how the letters of words, going from left to right, represent their sounds. First-grade classrooms must be designed to ensure that all children have a firm grasp of these ...

Analyzing Data What Is It? Data analysis is the process of interpreting the meaning of data we have collected, organized, and displayed in the form of a table, bar chart, line graph, or other representation. The process involves looking for patterns—similarities, disparities, trends, and other relationships—and thinking about what these patterns mean.
